**LinkedIn:** [linkedin.com/in/kevinfiorentino](https://linkedin.com/in/kevinfiorentino)

**GitHub:** [github.com/KevinFiorentino](https://github.com/KevinFiorentino)

## PROFESSIONAL EXPERIENCE

### Entrepreneurship

Team Manager & Chief Technology Officer | May 2023 – Feb 2025

Summarizing this experience is quiet difficult. But I would like to highlight the following points:

- We gave +20 junior developers their first tech job and created a very good work environment.
- I am proud with our tech milestones, everything learned, and difficult decisions I made. Especially related to infrastructure, which technologies to use, and people management.
- I acquired a lot of knowledge related to the entire life cycle of a business.

**Stack:** NestJS, NextJS, MongoDB, MySQL, Auth0, AWS, Langchain

### Editorial Astrea

Freelance: Software Manager | May 2021 – Present

- Astrea is a freelance customer where I created [astreavirtual.com](http://astreavirtual.com), which is a complex development to read online books with a focus on security and avoiding piracy; and [astrea.com.ar](http://astrea.com.ar), which is an e-commerce to sell physical and digital books.
- Both generate around 180,000 USD in annual revenue for the company.
- With the infrastructure I designed, the company saved 4,000 USD annually in costs compared to the previous infrastructure they had.

**Stack:** TypeScript, Angular, NodeJS, NestJS, MongoDB, Elasticsearch, AWS, Firebase

### Fadep SA

Freelance: Software Developer | Jun 2020 – Present

- Fadep is one of the two freelance customers I have been working on for about 5 years. I developed [fadepsa.com.ar](http://fadepsa.com.ar), which is specially an SEO challenge. And [tienda.fadepsa.com.ar](http://tienda.fadepsa.com.ar), which is an e-commerce to sell products.
- Both generate leads for the company and around 8,000 USD monthly.

**Stack:** React, NextJS, AWS, PHP, Drupal, MySQL

### Blockchain Researcher

Blockchain Developer | Oct 2022 – Sep 2023

- I worked on an IoT/Blockchain project based on Solana and Helium networks. The project did not prosper, but it was an important experience to work on an international project.

**Stack:** Rust, React, NextJS, Solana & Helium Web3 Services

### Alquilando

Full Stack Javascript Developer | Dec 2020 – Jun 2022

- Having worked for a small startup taught me lessons about what to do and not to do, especially in communication and people management. Knowledge I applied in my experience as CTO.

**Stack:** TypeScript, Angular, NodeJS, NestJS, MongoDB

### Government of the City of Buenos Aires

Full Stack PHP Developer | Jun 2017 – Dec 2020

- I worked for the Tourism area developing [turismo.buenosaires.gob.ar](http://turismo.buenosaires.gob.ar). The website of one of the most popular cities in Latam witch has more than 900,000 monthly visits.

**Stack:** Javascript, PHP, Drupal, MySQL

## ACADEMIC ACHIEVEMENTS

### Universidad Nacional De Lanús

Bachelor in Information System | 2013 – 2019

- For my Thesis, I did a research called “*Front-end Technologies For Software Developers*” where I compared the performance of technologies like Angular, React, and Vue.js.

See presentation on [youtube.com/watch?v=8jmnt7rYkGk](https://youtube.com/watch?v=8jmnt7rYkGk)

### Platzi

Student | Oct 2020 – Present

- I have taken more than 130 course which have given me much of the knowledge I have. Courses related to JS, Angular, React, NodeJS, Blockchain, soft skills, among others.
- Favorite course: [Engineering Manager](#) where I mainly learned the basics of people management mostly. Skills that I implemented in my experience as CTO.

## EXTRACURRICULAR ACTIVITIES

### Platzi Contributor

Content Creator | Mar 2022 – Jul 2023

- I participated in about 50 courses writing +600 articles belonging to its classes.
- I was recognized by the company as one of the best contributors among +300 people with the title “Leader Contributor” where I could help others to improve their writing skills.

**Courses I contributed:** Angular, NestJS, English, Blockchain, Bitcoin, Solana
