PROFESSIONAL EXPERIENCE

Entrepreneurship

Team Manager & Chief Technology Officer | May 2023 – Feb 2025

Summarizing this experience is quite difficult. But I would like to highlight the following points:

- We gave +20 junior developers their first tech job and created a very good work environment.
- I am proud with our tech milestones, everything learned, and difficult decisions I made. Specially related to infrastructure and which technologies to use.
- I acquired a lot of knowledge related to products, validation and software release.

Stack: NestJS, NextJS, MongoDB, MySQL, Auth0, AWS, Langchain

Editorial Astrea

Freelance: Software Manager | May 2021 – Present

Astrea is a legal editorial where I developed a digital library for reading books and an e-commerce to buy them.

- astreavirtual.com was hired by +20 educational institutes in Latam and +150 individual users.
- astrea.com.ar processes around 600 monthly purchases of physical and digital books.
- With the infrastructure I designed, the company saved 3,500 USD annually in costs compared to the previous infrastructure.

Stack: TypeScript, Angular, NodeJS, NestJS, MongoDB, Elasticsearch, AWS, Docker, Firebase

Fadep SA

Freelance: Software Developer & Webmaster | Jun 2020 – Present

- Building fadepsa.com.ar was specially an SEO challenge. The site is optimized and ranked well on Google. Since we created it, it has generated +4000 leads and sales have increased.

Stack: Javascript, PHP, Drupal, DonWeb

Blockchain Researcher

Blockchain Developer | Oct 2022 – Sep 2023

- I worked on an IoT/Blockchain project based on Solana and Helium networks. The project did not prosper, but it was an important experience to work on an international project.

Stack: Rust, React, NextJS, Solana & Helium Web3 Services

Alquilando

Full Stack Javascript Developer | Dec 2020 – Jun 2022

- Having worked for a small startup taught me lessons about dos and don'ts, especially in communication and people management. Knowledge I applied in my experience as CTO.

Stack: TypeScript, Angular, NodeJS, NestJS, MongoDB

Government of the City of Buenos Aires

Full Stack PHP Developer | Jun 2017 – Dec 2020

- I worked for the Tourism area developing turismo.buenosaires.gob.ar. The website of one of the most popular cities in Latam which has more than 900,000 monthly visits.

Stack: Javascript, PHP, Drupal, MySQL

ACADEMIC ACHIEVEMENTS

Universidad Nacional De Lanús

Bachelor in Information System | 2013 – 2019

- For my Thesis, I did a research called “*Front-end Technologies For Software Developers*” where I was able to compare the performance of technologies like Angular, React, and Vue.

Platzi

Student | Oct 2020 – Present

- I have taken more than 130 courses which have given me much of the knowledge I have. I have taken courses about JS, Angular, React, NodeJS, Blockchain, among others.
- Favorite course: [Engineering Manager](#) where I mainly learned the basics of people management mostly. Skills that I implemented in my experience as CTO.

EXTRACURRICULAR ACTIVITIES

Platzi Contributor

Content Creator | Mar 2022 – Jul 2023

- I participated in about 50 courses writing +600 articles belonging to its classes.
- I was recognized by the company as one of the two best contributors among +300 people with the title “Leader Contributor” where I could help others to improve their writing skills.

Courses I contributed: Angular, NestJS, English, Blockchain, Bitcoin, Solana
